About Us

- EUC Smart Fix was established in 2019 as a general contracting company specializing in the construction of multiple private/public organizations and modular design-built projects.
- As a turn-key solutions provider, EUC pays attention to design and furnishing. This goes hand in hand with our construction services to determine the level of aesthetics and functionality for the project.
- EUC Smart Fix is not a mere construction company; we ensure our services will fulfill our client needs. From designing to planning, drawing, testing, managing and supervising; we provide an integrated package of services for any project we engage in.

OUR PROMISE

Transforming spaces. Reshaping lives.

Construction often lays the foundation for change whenever businesses expand, cities develop, or families grow. **EUC Smart Fix** understands that a building is more than walls, windows and doors –it is the venue for a better lifestyle for families and the surrounding environment that will help define businesses and organizations.

EUC Smart Fix Team

CEO & Director of Development

It is my pleasure... and I am also delighted and honored to address all my colleagues at work and our partners in success for their outstanding expertise and continuous support for our projects, which have earned the trust of our workers. Our projects have succeeded, thanks first and foremost to God, and then thanks to them. We are all partners in success.

Our team is always striving to provide what is new and unique in various administrative, professional, technical, consulting, and technological fields.

As the use of modern technologies and applications contributes to the quality of the services provided and achieves the desired goals, it is essential to recognize it as a means that aids in making sound decisions, allowing for efficiency in use, monitoring, and establishing appropriate plans and recommendations.

Moreover, the company has a specialized team with diverse expertise and skills for such projects and activities, determining and establishing mechanisms to reach sound scientific methods and continuous monitoring of work sites.

The company is also keen on implementing Vision 2030 by focusing on the development of its human resources, creating a broad base of expertise and competencies that possess extensive knowledge, talents, and diverse experiences.

Finally... we praise God, first and last, for His facilitation and assistance, for He is the source of all grace and blessings.

Nouh Al shammeri

Vision & Mission

- **VISION**

- To become the clients' preferred choice, by attaining excellence in quality and timely completion of value-added projects.

- **MISSION**

- To attain the highest level of quality in construction services for our clients, with a fair and market-competitive pricing strategy.

- **PHILOSOPHY**

- Motivated and professional—We are problem solvers.

EUC Smart Fix

ARCHITECTURAL WORK

ARCHITECTURAL ENGINEERING

EUC team of engineers deals with the technological aspects and multi-disciplinary approaches to planning, design, construction and operation of buildings, such as analyzing and integrating design of environmental systems (energy conservation, HVAC, plumbing, lighting, acoustics, electrical power systems).

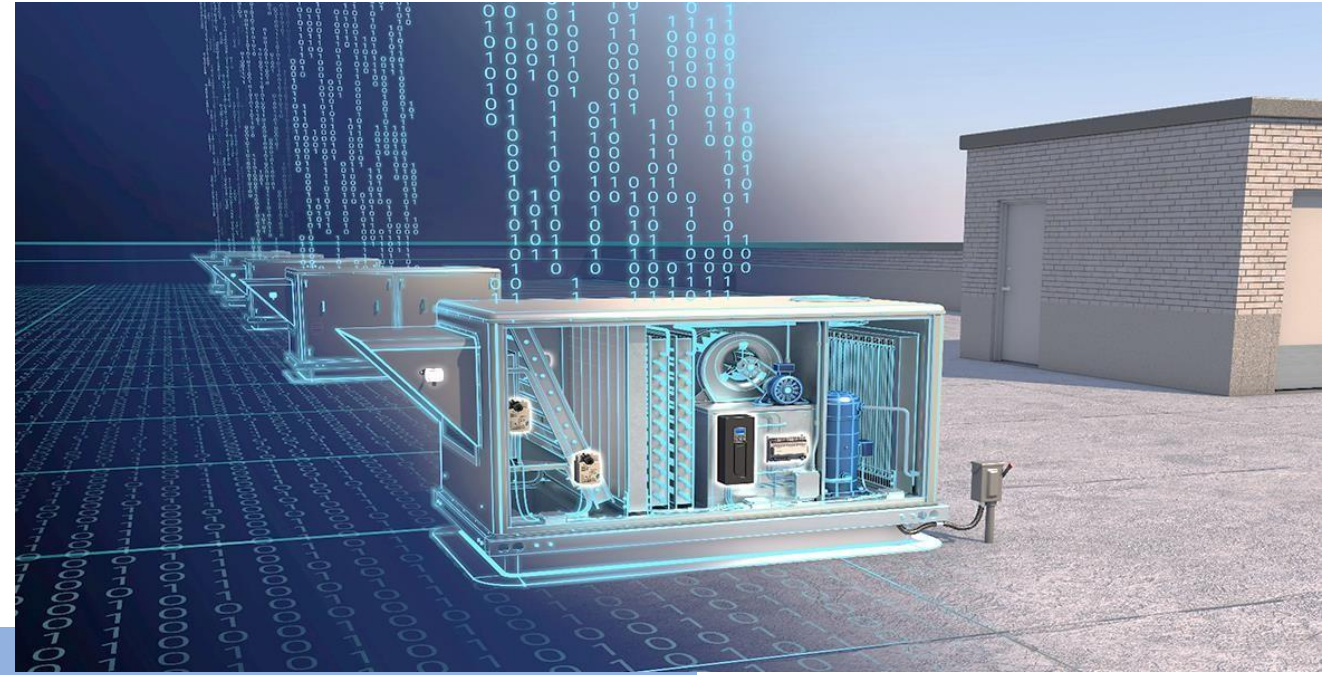

EUC CIVIL & ARCHITECTURAL WORKS:

- ✓ Block Work
- ✓ Wall Drywall & Partitions
- ✓ Plastering & Painting
- ✓ Doors & Windows
- ✓ Raised Access Floor System
- ✓ Floor & Wall Tiles
- ✓ Ceiling

MECHANICAL ENGINEERING

EUC mechanical engineers design ventilation, conditioning and heating systems for buildings such as hospitals, offices, schools or residential spaces. EUC engineers offers uniquely valuable knowledge, skills and experience. They enjoy problem solving and can always find new ways to improve products and processes.

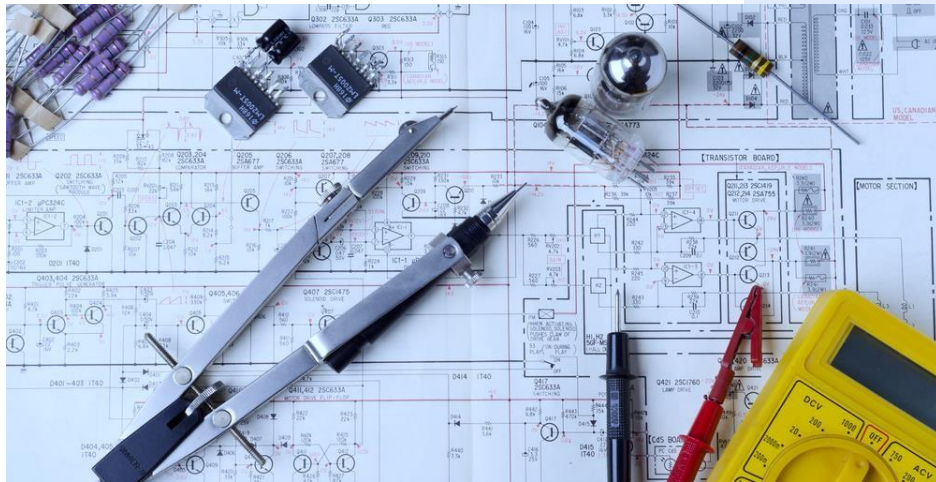

EUC MECHANICAL WORKS:

- ✓ Duct Fabrication
- ✓ Duct Installation
- ✓ Duct Insulation
- ✓ Chilled Water Systems
- ✓ DX Package Unit
- ✓ Pumps
- ✓ Steam & Condensate Systems

ELECTRICAL ENGINEERING

At construction sites, EUC electrical engineers direct and oversee electrical engineering projects, resolve issues, and ensure that work is completed according to specifications. It is also the duty of our electrical engineers to ensure that plans and work are completed in compliance with local electrical codes.

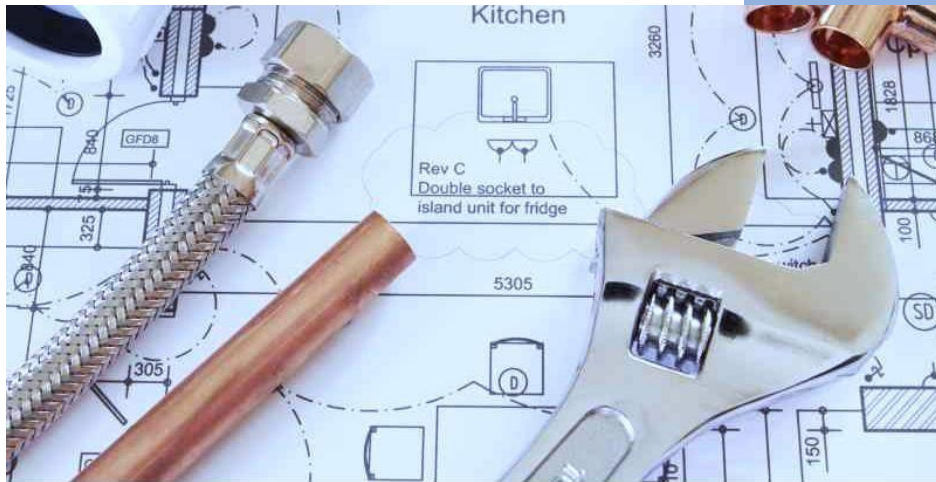

EUC ELECTRICAL WORKS:

- ✓ Install wiring, cabling & power cabling
- ✓ Fix lighting fixtures
- ✓ Fix UPS unit and batteries, structured cables
- ✓ Fix Access control, public address devices
- ✓ Install fire alarm & Telephone devices
- ✓ Install CCTV, Master Clock, Nurse Call devices
- ✓ Install data cables & BMS System
- ✓ Install Generator set
- ✓ Install earth work

PLUMBING ENGINEERING

EUC plumbing engineers are professionals involved with the planning, design and installation of building systems related to plumbing – including water supply and drainage.

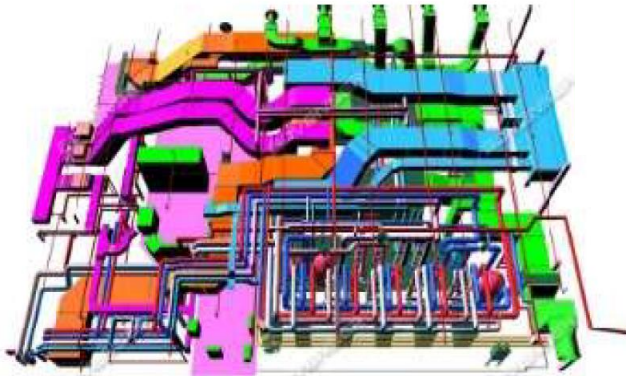

EUC PLUMBING WORKS:

- ✓ Plumbing
- ✓ Drainage
- ✓ Water Supply
- ✓ RO & STP
- ✓ Pumps
- ✓ LBG Systems
- ✓ Medical Gas

Building Information Modeling (**BIM**)

We provide MEP BIM services to MEP consultants, contractors, fabricators and manufacturers around the globe. We attain market distinguish where we have delivered quality services with accuracy and client satisfaction.

EUC BIM WORKS

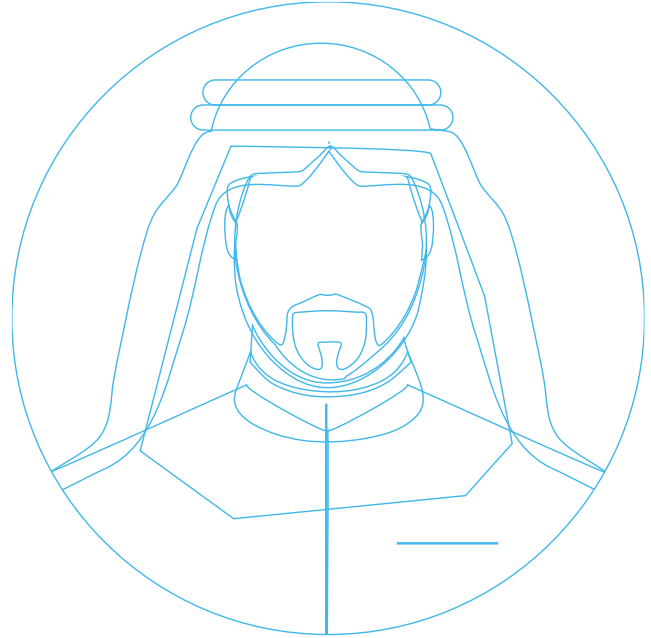

Our Services

- ✓ MEP BIM Services
- ✓ MEP 3D Modeling
- ✓ MEP BIM Coordination
- ✓ MEP Quantity Takeoff
- ✓ Revit MEP Services
- ✓ Piping Spool Drawing
- ✓ MEP Shop Drawing

PARTNERS:

We are pleased to announce the creation of a joint venture, which will leverage more than 25 years of combined experience in the fields of construction, maintenance, and operations. Through this joint venture our customers will benefit from an expanded number of advanced construction services across KSA and the Gulf Region, further diversification of expertise, and refined maintenance and operating service. We are thrilled about bringing our three companies together to create a stronger regional joint venture and further expand our services pool. This partnership will strengthen our team and open many new opportunities for our company, as well as our customers.
